Contents Vol. 26, 1989

A study and modelling of liquid-phase mixing in a flotation column
P. Mavros, N.K. Lazaridis and K.A. Matis (Thessaloniki, Greece) 1
Silver recovery from spent colour-photography solutions
M.A. Rabha, K.A. El Barawy and F.H. Aly (Cairo, Egypt) 17
An XPS investigation of the surface of natural sphalerites under flotation-related conditions
A.N. Buckley, R. Woods and H.J. Wouterlood (North Ryde, N.S.W., Australia) 29
Flotation properties of celestite in aqueous solutions of ionic surfactants
F. González-Cabalero, M.A. Cabrerizo, J.M. Bruque and A. Delgado (Granada, Spain) 51
On the definition and separation of fundamental process functions
M.C. Williams and T.P. Meloy (Morgantown, W.V., U.S.A.) 65
A search strategy for optimization of flotation circuits
A. Dey, P.C. Kapur and S.P. Mehrotra (Kanpur, India) 73
Complex sulphide ore processing with pyrite flotation by nitrogen
C.J. Martin, S.R. Rao, J.A. Finch and M. Leroux (Montreal, Que., Canada) 95
Flotation of ilmenite using benzyl arsonic acid and acidified sodium silicate
Q. Song (Beijin, P.R. China) and S.C. Tsai (Long Beach, Calif., U.S.A.) 111
Flotation of phosphatic material containing carbonatic gangue using sodium oleate as collector and sodium silicate as modifier
K. Hanumantha Rao, B-M. Antti and E. Forssberg (Luleå, Sweden) 123
Grinding efficiency with balls or cones as media
J.A. Herbst and Y.C. Lo (Salt Lake City, Utah, U.S.A.) 141
Biochemical and chemical events in copper solubilization from a chalcopyrite concentrate by *Thiobacillus ferrooxidans* in batch culture
L. Toro, S. di Cesare and A. Lepidi (L'Aquila, Italy) 153
Announcements 163
Classification with two-stage cylinder-cyclones in small-scale grinding and flotation circuits
C.J. Restarick (Clayton, Vic., Australia) 165
An XPS study of adsorption of methyl and amyl xanthates on copper
J. Mielczarski, E. Suoninen, L.-S. Johansson and K. Laajalehto (Turku, Finland) 181
Some electrochemical aspects of grinding media corrosion and sphalerite flotation
Vathsala and K.A. Natarajan (Bangalore, India) 193
Rheology and mineralogy as related to engineering properties of phosphatic clay tailings
B.E. Novich (Cambridge, Mass., U.S.A.) and R.T. Martin (Orlando, Fla., U.S.A.) 205
Computer-assisted calculations of thermodynamic equilibria in sphalerite–xanthate systems
B.I. Pålsson and K.S.E. Forssberg (Luleå, Sweden) 223
In-situ FTIR study of ethyl xanthate adsorption on sulfide minerals under conditions of controlled potential
J.O. Leppinen, C.I. Basilio and R.H. Yoon (Blacksburg, Va., U.S.A.) 259
Utilisation of low-grade pyrites through bacterial leaching
G. Roy Chaudhury, L.B. Sukla and R.P. Das (Bhubaneswar, India) 275
A study on the beneficiation of Indian iron-ore fines and slime using chemical additives
S. Mahiuddin, S. Bondyopadhyay and J.N. Baruah (Jorhat, India) 285
The role of metal hydroxides at mineral surfaces in dextrin adsorption, I. Studies on modified quartz samples
Q. Liu and J.S. Laskowski (Vancouver, B.C., Canada) 297
Announcement 317
